

## Plating Template

If you will be sending your samples pre-plated, please make sure to follow this template.

Samples need to be loaded down, in columns (A1-H1, A2-H2...) with corresponding cell numbers included in the returned Sample Identification document. If (at all possible) the IDs can be written somewhere on the plates as well, that would be helpful as a second cross reference.

Please feel free to print this page and fill out.
